Address

Street Address

Street Address Line 2

City   State/Province

Postal/Zip Code   Country

I wish to apply for admission to:

Planned date of commencement of PhD studies

Day   Month   Year

Applicants can only start the 1 or 15 in a month

Working title of the PhD project

Have you previously been enrolled as a PhD student?

Yes   No

If 'yes', please state below 'where' and 'how many months you have previously received salary'. Incorrect information may lead to cancellation of enrolment and revocation of scholarship.

The PhD student will be employed at DTU during the PhD project

Yes   No

If the position has been advertised, please state the ID.no.

Please attach the following documents to the application
- A short description of your PhD project
- Official copy of Master's and Bachelor's diploma, in English. (Please be informed that we may check the level of your degree with an agency specialized in this field)
- Official copy of Master's and Bachelor's transcript, in English. (Diplomas from foreign universities must be accompanied by an official description of the grading scale, including the highest and lowest grades on the grading scale)
- Applicant's CV
- External co-supervisor's mini CV's max 1 A4-page and a list of the last 3-5 years' publications, max 2 A4-pages, if relevant

Cooperation agreement. If the PhD project is co-financed by an external party, e.g. a company, a cooperation agreement between DTU and that party must be prepared. Such agreement describes the Parties' cooperation and their rights and obligations in connection with the Project. Please contact your department's contract responsible for further information. *The PhD student cannot be enrolled until the agreement has been negotiated, agreed and signed by all parties.*

Double degree. DTU can award a double degree in connection with PhD projects under MSCA/doctoral networks.
Please note that an individual agreement must be filled in and signed prior to enrolment and possible employment of the candidate.
If the enrolment of the candidate is based on such agreement, please tick the box and mark below whether DTU will be Home for (primary enrolment at DTU) OR Hosting the candidate:

DTU is Home   DTU is Host

Please state the name of the partner university

Joint supervision. DTU has joint supervision programmes with a number of strategic partners at institutional level. If the enrolment of the candidate is based on such agreement, please fill out above box. Please note, that the majority of DTU's PhD projects are co-supervised by supervisors employed at external institutions. Such standard co-supervision is not defined as a joint supervision agreement.

Please state the name of the partner university

Educational background information
Bachelor's degree

Name of university or other institution

Assessment of candidate for PhD project
Please include relevant comments from the recruitment committee

The assessment information is provided by

Project – Assessment of the project (not a summary)

The description could include arguments for: 1) The project being within the research field of the department 2) The clarity of scientific hypotheses (research potential) 3)The prediction of expected results (potential accomplishments) 4) The project being well-planned.

Candidate information – Assessment of the candidate

The description could include information about: 1) Equivalence of degree with an MSc (Eng) 2) Other qualifications – publications, study abroad, honours/elite programs etc. 3) Record of employment (if relevant for the PhD project).

Detailed description of the recruitment process

The description must include information about: 1) How the department knows the candidate (from interview, project etc.) 2) Was the candidate recruited from abroad 3) if recruited from abroad, how was the candidate interviewed – online or through meeting in person All PhD positions with employment at DTU must be advertised unless more than 50% of the funding is given to a named person.

Supervisor (team) information – Assessment of the supervisorteam

Scientific profile
Below, please give a rough percentage distribution of the project's total research activities according to discipline. No more than three disciplines may be indicated, so the distribution must be based on the most important disciplines. <u>The figures must total 100 per cent.</u>

Scientific profile – discipline 1   **Percentages**

Scientific profile – discipline 2
                                                          Percentages

Scientific profile – discipline 3
                                                          Percentages

Academic profile – research areas

Please give a rough estimate of the total research activity of the PhD study measured in man-years as it can be attributed to individual research areas.
Please note that the list only includes selected research areas. The areas may overlap and the percentages may add up to more than or less than 100 percent. No more than four research areas can be selected.
Some research areas include a number of subordinate research areas. If the percentage of a research area is set at more than 0, and the research area includes subordinate research areas, the percentages of these must be stated. If e.g. a research has seven subordinate research areas, the total sum of the subordinate areas must amount to 100 percent.
As the subordinate areas are not necessarily mutually exclusive, please choose the area that best fits the description.

Cancer research   **Gender studies**   **Food safety**

Pandemic preparedness and response   **Psychiatry**   **Democracy**

Polar research

Green research and development
