

## Profile of one school year

Whole MSC programmes, 2022

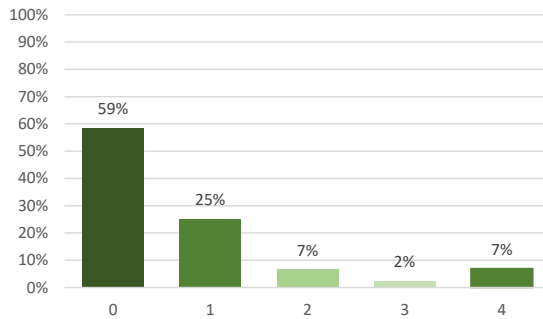

Amount of admitted

2315

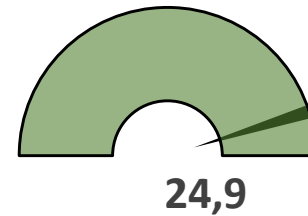

Share of women

38%

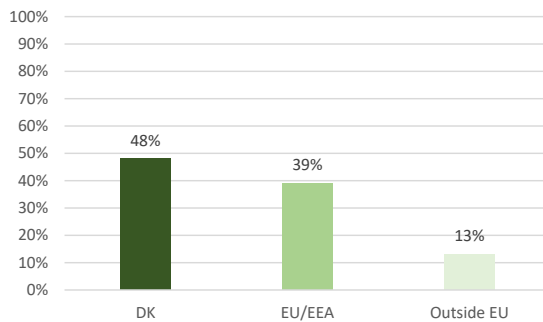

Age at entrance exam (groups)

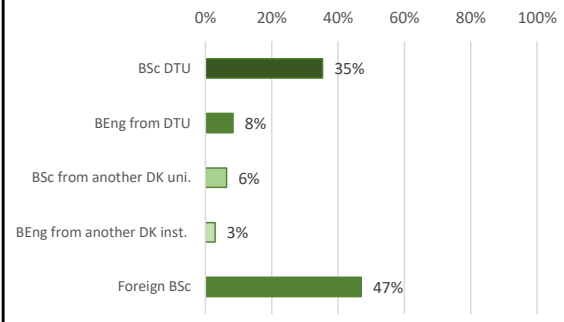

Average age at study start

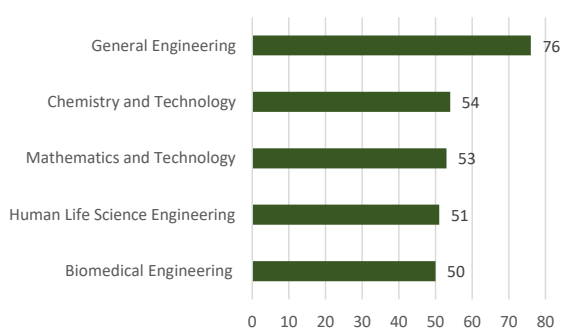

Admitted split into country groups\*\*

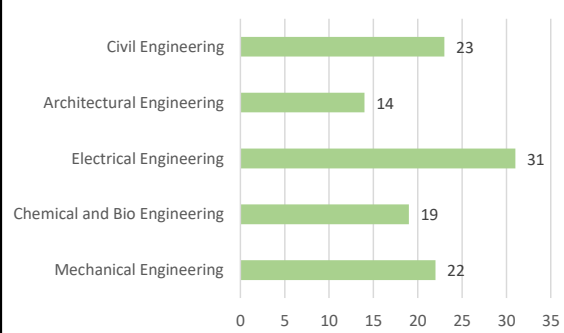

Admitted split into types

Admitted from DTU Bachelor's degree\*

Admitted from DTU BEng programme\*

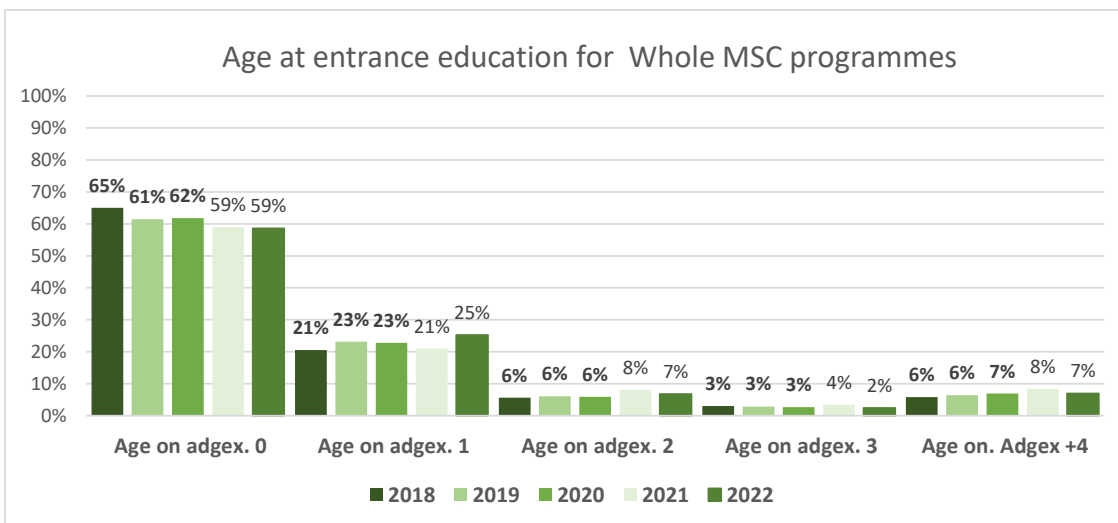

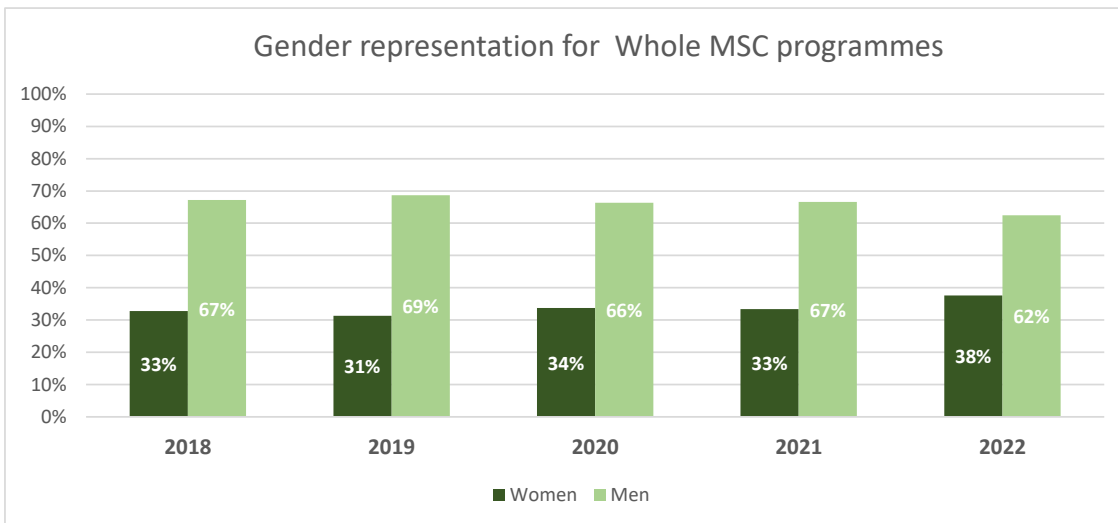

This profile contains descriptive statistics about the various years of admission to the master's degree in technical science. The purpose of the profile is to describe some of the newly admitted characteristics in terms of their educational, geographical and age background. The numerical material in this profile is based on the information that DTU registers about the students which is used in processing their application for admission.

*\*For the main programme, the top 5 in the given year are shown*
